SUMMARY

Software developer with expertise in programming, design and maintenance of software systems. Equipped with a good and diverse skill-set. Able to effectively self-manage during independent projects, as well as collaborate as part of a team.

EDUCATION

BACHELOR DEGREE IN COMPUTER SCIENCE   *01/10/2015 - 30/06/2018*
ADDRESS : CRAIOVA (ROMANIA)

MASTER'S DEGREE IN ADVANCED TECHNIQUES FOR INFORMATION PROCESSING   *01/10/2018 - 30/06/2023*
ADDRESS : CRAIOVA (ROMANIA)

WORK EXPERIENCE

CONSI SERV SRL   *03/2020 - Current*
SOFTWARE DEVELOPER
ADDRESS : STR ȘTEFAN CEL MARE, NR. 7
CITY : CRAIOVA
COUNTRY : ROMANIA

As a Software Developer my responsibilities are :

1. Establishing and maintaining ongoing customer engagement to deliver superior user experiences and tailor solutions to their specific needs.
2. Experienced in designing and developing websites and desktop applications, either for clients or to streamline internal processes within the company.
3. Proficient in writing clean and efficient functional code for both front-end and back-end development, ensuring robust and maintainable software solutions.
4. Conducting basic testing and addressing coding issues, such as identifying and fixing bugs and other coding-related problems.
5. Skillfully building and shaping databases, ensuring their structural integrity and optimal performance.
6. Continuous maintenance, enhancement, and support of complex software systems, ensuring their robustness, scalability, and ongoing reliability.

PROJECTS

Some of the projects I worked on include :

1. Creating a web application in ASP.NET Core dedicated to real estate appraisal management, equipped to generate all essential appraisal documents, streamlining the workflow with a focus on maximizing efficiency and productivity.

2. Developing a web application in PHP primarily focused on enabling users to efficiently search and access Romanian laws from a comprehensive database. Additionally, the application offers features such as adding to favorites, allows users to conveniently print law texts and includes a robust mechanism for tracking and checking updates and modifications to laws.

3. Building a desktop application with .NET to streamline the process of inputting and managing Romania's laws within a database.

4. Designing a Client-Server desktop application in .NET to achieve the same objectives as the previously mentioned PHP-based web application for searching and accessing Romania's laws.

5. Creating a desktop application for generating both traditional invoices and electronic invoices, while also facilitating contract and receipt management.

DIGITAL SKILLS

1. **Programming languages:**

   C# , PHP , JavaScript, C++

2. **Desktop Applications:**

   .NET, Object-Oriented Programming, Language Integrated Query (LINQ), Entity Framework Core, Visual Studio, Windows Forms, WPF

2. **Web Development:**

   ASP.NET MVC, ASP.NET Core, jQuery, Vue.js, HTML5, CSS3, Bootstrap, Bulma

3. **Database:**

   SQL, MySQL,

4. **Other:**

   LaTeX, Microsoft Office Suite

LANGUAGE SKILLS

Mother tongue(s) :

   ROMANIAN

Other language(s):

   ENGLISH

   LISTENING C2   **READING** C2   **WRITING** C1   **SPEAKING** B2
